Kigali, Rwanda 📍

Professional Summary

Innovative Full-Stack Developer with 5+ years of experience in web and mobile development, I am specialized in building scalable applications using modern technologies. With a strong background in user experience, performance optimization, and system integration, my passion about educational technology commits me to deliver high-quality and maintainable solutions. Two major strengths of mine are:

- *ability to face new challenges and work efficiently in a team*
- *willingness to learn new technologies and frameworks to improve my skills*

Technical Skills

Frontend Development

- TypeScript
- React.js with Next.js App Router
- React Native with Expo
- Tailwind CSS
- Shadcn UI with Radix UI

Backend Development

- Node.js with Express.js
- Next.js with RSC and Server Actions
- tRPC
- Prisma ORM or Mongoose
- RESTful APIs

Database & Cloud

- PostgreSQL or MongoDB
- Vercel or AWS
- Docker

Tools & Methods

- Git with GitHub
- Agile / Scrum
